

## Alfresco Centre Mount Bifold Door

Ezial's Centre Mount Top Rolling Bifold System allows panels to stack against the door jamb with even distribution inside and outside the door track. This feature is essential for spaces with no obvious wall for the door panels to stack against – or where space is too limited to accommodate a standard inward / outward pivoting set up. Free of fixed panels, mullions and posts, this system provides an unobstructed opening between indoor and outdoor spaces. The Alfresco Centre Mount Bifold System is ideal for use in internal restaurants and shopfront applications where weatherproofing is not required.

### FEATURES & BENEFITS

- Huge opening – free of fixed glass panels, mullions and posts
- Half-width door panels attached to door jambs facilitate centre-fold function
- Smooth gliding operation
- Ezi-Seal technology for enhanced weather durability, insulation, and acoustics
- Movement controlled by articulated carriers

### SPECIFICATIONS

#### FRAME SIZE

101.6mm

#### MAXIMUM OPENING SIZE

3100mm high x 16000mm wide

#### MAXIMUM PANEL SIZE

3000mm high x 1050mm wide

#### MAXIMUM PANEL WEIGHT

300kgs

#### MAXIMUM NO. OF PANELS

Unlimited

#### GLAZING RANGE

5mm - 13.5mm (16.2mm pocket)

13mm - 30mm (34.2mm pocket)
